

Preveil

Polyester Surfacing Veil

PRODUCT INFORMATION

Characteristics

100% polyester veil
Low cost
High Uniformity
Good chemical resistance
Good Tensile strength
Improves abrasion resistance
Improved part appearance
Good wet-out
Available in widths from 1" to 124"
Flat Bond "Industry Standard"

Applications

Superior handling in Pultrusion
Improves weathering
Reduces fiber blooming
Reduces die wear and
production shutdowns
Improves impact resistance

Style	700-70013	700-70012
Bond Weight (Gr/m ²)	40	34
Basis Weight (Oz/y ²)	1.2	1.0
Thickness (mils)	9	8
Thickness (mm)	.23	.20
Grab tensile MD - Lbs	21	16
Elongation MD - %	47	36
Grab Tensile CD - Lbs	14	14
Elongation CD - %	48	50
Melting Point - (°C)	255	255
Air Permeability(cfm's)	591	675
